INTERESTS

Computer Graphics

Piano Jazz Improvisation

Game Dev

Rock climbing

Graphic Design

Profile

Passionate about both art and programming since middle school. What excites me most is simulating the physical world on a computer, and turning those simulations into something visually stunning.

I absolutely love solving complex problems, and computer graphics is the perfect field for me precisely because it everything I love comes into one discipline.

Education

Master of Computer Science

Sep. 2024 - Now

Télécom Paris (*Top French engineering school*)

Tracks: "3D & Interactive Systems", "Computer Vision & Artificial Intelligence"

French competitive preparatory program for top engineering schools

2022 - 2024

Lycée Camille Guérin - Poitiers

Majored the 2 years.

Main courses: Mathematics, Physics, Computer Science

Notable Projects

Path Tracer

github.com/SlyZ1/Path-Tracer

Short description : Physics-based renderer with OpenGL exploring offline rendering and complex materials.

Soft & Rigid Bodies Simulation

github.com/SlyZ1/Physics-Based-Bodies

Short description : Group project in Godot tackling Soft-Rigid bodies interactions. Uses spring physics and soft constraints.

Real-time Smoke Simulation & Rendering

github.com/artishow-smoke/Smoke

Short description : Group project on Godot, uses LBM and ray-marching.

Isometric Procedural Environment

github.com/SlyZ1/Isometric-Pixel-Game

Short description : Isometric pixel art game in Unity exploring procedural generation and custom lighting.

Echo Depths

github.com/Protocol-Juice/echo-depths/

Short description : Ludum Dare 57 entry (game jam). Built in 3 days, ranked 20th out of 3000.

Experience

Board Member at La Scène, Live Music Student Association

Apr. 2025 – Apr. 2026

Télécom Paris

- Designed promotional materials (event posters, hoodies) and managed ordering and sales
- Helped organize large-scale events, including university music festivals
- Performed as a musician at association events

Industrial Internship

Jul. 2025 – Aug 2025

SKF · Saint-Cyr sur Loire

- Performed manual work on the production floor
- Reorganized and restructured digital file systems
- Automated email workflows to streamline internal communications

Qualities

Passionate, Creative, Team-work, Adaptability, Easy to work with, Communication skills, Open-mindedness, Problem-solving,
